Sir,

With reference to your letter No.J.2801 dated the 19th February 1915, enquiring what diaries the Police are required to maintain and how many copies of each are at present made, and whether carbon papers may be used in writing them, I have the honor to state that there are three diaries prescribed to be maintained by the Police, viz, the Station House Diary, the General Diary and the Special Diary. Two copies of each are required, one to be submitted to the District superintendent's office and the other to be retained as office copy. Besides these diaries there are other reports which often require to be duplicated and triplicated, as for instance, the first information reports, charge sheets, witness statements, inquest reports, mahazars, search lists &c. The several Superintendents of Police, who were consulted in the matter are all unanimously in favour of carbon papers being used in making copies of these documents as besides giving a facsimile of the original it will save a good deal of clerical labour and enable the subordinate officers to devote more time to the ~~prevention and~~ investigation of crime I am also of the same opinion and would recommend that sanction may be accorded for the use of carbon papers as in British India for the writing of special diaries, First Information

and other reports of which more than one copy has to be prepared under the standing orders.

2. The additional cost entailed by the supply of carbon papers to each of the stations is not likely to exceed Rs.1,000/- and it will be more than compensated by the saving of time and labour which will be effected by the arrangement.

I have the honor to be,
sir,
your most obedient servant,
